2nd Stage Starter Diet

Product: multiSTART is the ideal starter pellet for pigs weaned at 12 lbs. Bodyweight or heavier.

Pack Size: 50 lb Bags. Also available in 1,200 to 2,000 lb totes.

Form: 2 mm pellet.

Use Rate: Feed at the rate of 1.0 to 2.0 lbs per head for pigs weighing from 10 to 13 lbs of bodyweight.

Features:

- Contains gelatinized cereals and food grade milk ingredients.
- Formulated to get later weaned pigs off to a fast healthy start.
- 2mm pellets are made using European technology that assures high pellet durability and yet remains soft enough to be easily chewed by the newly weaned pig.

Purpose: Ideal diet for pigs weaned over 18 days of age.

Benefits:

- Easily digestible ingredients promote good feed intake.
- High milk protein levels promote good gut and immune health
- Consistent pellet reduces fines.
- Contains pre and probiotics to improve performance.

Remarks: Keep feed fresh. Do not store in nursery rooms.

Feeding Directions: All weaned pigs need at least 1 lb of either multiSTART or another Eu-Tec starter diet depending on weaning age and body weight.

We recommend small quantities of fresh food frequently, not allowing feed to get stale.

Water intake drives feed intake. Be sure that newly weaned pigs are encouraged to drink by providing opportunities for pigs to group water.
